Nagabhushan Umesh

Dover Digital Engineering- Senior Technical Specialist | AI DBA | Microsoft SQL Server | Azure & AWS Cloud | Performance Tuning | HA/DR |MTech in Computing and Infra
Bengaluru, Karnataka, India

Summary

Principal Cloud Database Administrator with 15+ years of experience designing, migrating, and operating mission-critical SQL Server platforms across Azure and AWS at enterprise scale. I specialize in cloud database architecture, high availability, disaster recovery, and performance optimization, supporting large-scale environments ranging from hundreds of GBs to multi-TB databases with strict uptime and reliability requirements. My expertise spans the full lifecycle of database platforms — from on-premises to cloud migrations, cloud-native architecture design, and DevOps-driven automation, to 24×7 production support in highly regulated and performance-sensitive environments. What I bring:• Principal-level ownership of SQL Server platforms (2005–2025) across Azure & AWS• Architecture and implementation of HA/DR solutions (Always On, Clustering, Log Shipping, Replication)• Azure & AWS migrations with zero / near-zero downtime• Performance tuning & optimization (query, index, IO, memory, CPU)• Cloud cost optimization through right-sizing and automation• Database security, reliability, and governance• Strong DevOps mindset with automation using T-SQL and PowerShell• Leadership, mentoring, and stakeholder collaboration across global teamsCloud & Technology Focus:• Azure: SQL on Azure VMs, Azure SQL, Storage, Networking• AWS: EC2, S3, cloud database hosting• SQL Server: 2005–2025 (OLTP, HA/DR, migrations, upgrades)• Automation: PowerShell, T-SQL, SQL Agent• Monitoring & Tools: DMVs, SCOM, SolarWinds, Redgate, Splunk.

Certifications:
✓ Microsoft Certified: Azure Database Administrator (DP-300)
✓ Microsoft Certified: Azure Administrator (AZ-104)
✓ Microsoft Certified: Azure Fundamentals (AZ-900)

I enjoy working at the intersection of architecture, reliability, and scale, helping organizations modernize their data platforms while reducing operational risk and cost.

Experience

Dover India
Senior Technical Specialist
May 2022 - Present (4 years 6 months)
Bengaluru, Karnataka, India

• Own end-to-end architecture and operations of SQL Server platforms in Azure and AWS
• Lead on-premises to cloud migrations using Azure VMs, AWS EC2, S3, FSX, EBS
• Serving as Principal DBA, providing technical leadership and governance across database estate
• Designed cloud-native HA/DR architectures to improve resilience and availability
• Implemented automation frameworks for backups, maintenance, data archiving, and environment builds
• Delivered performance optimization initiatives improving query execution and system stability
• Partnered with infrastructure, security, and application teams to ensure compliance and reliability
• DB design and Capacity planning
• Supporting 1500+ databases across Azure & AWS, Webservers and replication servers.
• Leading Database team.

Kyndryl
Systems Management Specialist-SQL Server onpremises and microsoft azure cloud
November 2018 - April 2022 (3 years 6 months)
Bangalore

Infrastructure Specialists for Hybrid Cloud Projects (Database) deliver multi-cloud & infrastructure project services leveraging their Database Product subject matter expertise in both traditional and cloud environments. Services include design, implementation and customization of products and technology delivered in a time-bound, milestone based project schedule driven by client requirements and delivered using IBM service methodology. Project services

typically involve heavy interaction with the client in support of concluding the project to meet the client's requirements.

Wipro Limited
Technical Lead
November 2013 - October 2018 (5 years)
Greater Sydney Area

Expertise in MS SQL Database Administration on Production Servers with server configuration,
Migration of SQL server 2008 to SQL Server 2014 in Microsoft Windows Server 2012 Enterprise
Edition.
Performance tuning and maintenance with outstanding troubleshooting capabilities.
Strong technical background along with the ability to perform business analysis and write
effective documentation and specifications.
Database administration activities like Installation, Configuration on Clustered environment,
Backup & Recovery on SQL 2005/2008/2012.
Administering SQL Server High Availability and Disaster Recovery strategies.
Expert in data transformation services like SSIS, DTS, BCP and Bulk Insert.
Experience in using DMV and dynamic management functions for finding out long running queries.
Experience in Disaster Recovery Planning and Security Management operations.
Remote administration of Sql server databases in standalone/clustered environment.
Having hands on experience in DR processes including Log shipping and Database Mirroring.
Proficiency and expertise in SQL Server Replication.
Worked on configuring SQL Server with minimum privileged access.
Handled multiple SQL Instances on Cluster environment for Server Consolidation projects built
on SAN using RAID levels.
Migration/upgrade/patch Databases across servers for faster performance.
Handling Memory configurations for SQL Server 2012 and SQL Server 2008 on Windows 2008.
Strong experience in mentoring team members and writing documentation.

Talisma Corporation
Senior System Engineer II
November 2009 - October 2013 (4 years)
Bengaluru, Karnataka, India

Implementation and maintenance of CRM product 7.1 to 8.6.
Remote administration of CRM in standalone/clustered environment.
Implementation of DR solution, HIGH availability of SQL databases using always on and
cluster servers,
Migration of CRM Databases across servers for faster performance.
Complete upgrade/patching end-to-end project implementation, Roll outs & Support projects
Database administration activities like Installation, Configuration, Backup & Recovery on SQL 2005/2008 R2
Understanding business requirements and providing out-of-the-box CRM solutions to the requirement, wherever possible.

Accenture
Software Engineer
April 2007 - September 2008 (1 year 6 months)
Bangalore

Accenture Financial Services Application maintenance team (AFS AMT)
Team Member as Software Engineer/SQL data base Administration.

Wipro Infotech Ltd
Application Support Engineer
December 2005 - March 2007 (1 year 4 months)
Bengaluru Area, India

E-Cube (Enabling Excellence In Execution)
Integration Process Automation Tool (IPAT)

Project for Implementation, Operation and Support of a Software Project Management Tracking application to manage the huge number of projects across the WIPRO limited, by monitoring the overall functioning of processes, identifying improvement areas and implementing adequate measures to maximize user's satisfaction level

Education

Birla Institute of Technology and Science, Pilani

Master of Technology - MTech, Computing Systems & infrastructure · (January 2022 - December 2023)

Visvesvaraya Technological University

B.E, Information Science · (2002 - 2005)

Siddaganga Polytechnic

Diploma, Computer Science · (1999 - 2002)

Vidyaniketan School

SSLC, English · (1988 - 1998)
